Know Us

The Academy of Competitive Intelligence

We are not about competitor profiling, news monitoring, or other activities that are little more than collecting and warehousing enormous amounts of tactical data and unfiltered noise, or dumping “nice to know” information on uninterested users. We are the only accredited competitive intelligence training organization that knows what powerful competitive intelligence can do for you in your job. Established in 1999 by founders in the field, the Academy of Competitive Intelligence is the oldest and largest educational institution solely dedicated to helping companies better control strategic risks and discover new market opportunities with competitive intelligence. **Our training is hard.** Let us equip you with this career-building skill that will pay dividends in your professional life both today and in the future.

What is competitive intelligence?

Competitive intelligence is the art and science of generating a deep understanding of marketplace players and industry forces. It enables executives to optimize their decisions in light of the plans and strategies of other high-impact participants in the external environment. High impact players include all third parties - not just competitors - whose interactions with the company is what determines strategic success.

Dr. Ben Gilad

Dr. Ben Gilad, president and founder of The Academy of Competitive Intelligence, is an award-winning and leading developer of competitive intelligence theory and practice in the United States. He is also a former Associate Professor of Strategy at Rutgers University's School of Management.

Dr. Gilad has been the creator of a unique war game methodology and lists many Fortune 500 companies as his consulting clients. He's led competitive intelligence training among executives at Business Week and CEO skills sessions at Fortune Magazine, to say the least.

Both him and his work have also been recognized among many media outlets and trade journals.

Dr. Gilad founded the Academy of Competitive Intelligence in 1996. In 1999, he co-founded the Fuld-Gilad-Herring Academy of Competitive Intelligence together with Fuld + Co.

[Read More on Ben and Helen](#)

Dr. Helen Rothberg

Dr. Helen Rothberg is a Professor of Strategic Management in the School of Management at Marist College, and senior faculty in the Academy of Competitive Intelligence. She holds a PhD and M.Phil from The City University Graduate Center, MBA from Baruch College, and a BA from Queens College. She is the 2011 recipient of the Board of Trustee's Distinguished Teaching Award.

Helen has authored and been featured in numerous trade journals and media publications. Helen's research interests include shadow and intelligence teams, and the intersection between competitive intelligence and knowledge management. She is the principal consultant for HNR Associates, a network of knowledge focusing on strategic change, competitive intelligence and knowledge management challenges.

Her book "The Perfect Mix: Everything I Know About Leadership I Learned as a Bartender": Simon & Schuster now available.

Heather Hallenbeck

Heather is the Director of Market and Competitive Intelligence at Genesys where she is centralizing their highly skilled intelligence team to analyze loads of market and competitive data to distill into actionable insights, memorable messages with compelling recommendations for marketing and sales while they elevate their strategic initiatives across the organization.

Heather previously was the Director of Corporate Insights for Bose Corporation. Heather built the formal Competitive Intelligence function at Bose and managed the Global Insights team including Competitive Intelligence, Market Analytics, Consumer Research and Business Strategy to deliver data-driven actionable insights. Her team was part of Corporate Strategy and Innovation and focused on analyzing and synthesizing critical competitive, market and consumer insights with strategic recommendations for all Bose businesses spanning research, product development and sales & marketing.

Heather is a seasoned strategist with proven ability to envision, lead and grow innovative businesses. She possesses a world class background in Marketing, Product Management, and Strategic Planning. She demonstrates the unique combination of big picture vision with pragmatic planning required to develop as well as to implement strategic plans.

She holds an MBA with concentrations in Marketing and Competitive and Organizational Strategy from Simon Graduate School of Business from the University of Rochester, a BS in Industrial and Labor Relations from Cornell University, and is a Master of Science in Information Systems (MSIS) alumna.

Heather and Melissa

Melissa Allen

Melissa Allen, Competitive Analysis Manager, has worked for a decade in competitive intelligence at Caterpillar as manager of the Business Resource Center. She has a demonstrated track record and is passionate about creating high efficiency in the knowledge value chain through enterprise resource sharing, knowledge management initiatives, and building strong relationships with key stakeholders.

She is an enthusiastic influencer whose subject matter expertise and strong communication skills have enabled her to lead by connecting with and motivating individuals across the firm, dreaming up strategic visions for the organization, and executing possibilities into concrete results.

Melissa holds an MLIS from the Graduate School of Library and Information Science at the University of Illinois Urbana/Champaign. She has been a member of the Conference Board Information Research and Management Council since 2012, actively works with the University of Illinois iSchool Corporate Roundtable, and serves as a mentor for those seeking guidance with communication skills. Melissa also leads large workplace and community events for the American Cancer Society and United Way, winning an ACS team excellence awards for her service work for the past several years.

What

We Offer

CIP™ Certification

If your job includes full or part-time responsibility for providing competitive intelligence to decision-makers inside your organization, ACI's Competitive Intelligence Professional (CIP™) certification is a rigorous training program that will enhance the value you bring to your organization while providing skills that will last throughout your career.

Our CIP™ Certificate Program has two levels, each accommodating different needs. You can receive both of the following certifications through our virtual trainings:

CIP™ -I Core Certification

This certification level requires you to complete all five core courses and pass the CIP™ -I exams. This level is suitable for starting CI analysts and managers with part time responsibility for CI in their jobs.

Analyst Asynchronous Skills Training

A new asynchronous certification online program for a fundamental skill set in competitive intelligence. You can take it at your own pace starting right now if you like by watching some videos and back and forth interaction with Ben Gilad on assignments and quizzes.

Strategic Early Warning
CI 301 Competitive Blindspots
CI 302 Cross-Competitor Analysis

Master of CI CIP™ -II Certification

In order to receive Master of CI Certification, you must be CIP™ - I certified, take the three Advanced courses and pass the CIP™ -II exams. This level is a necessary requirement today for those choosing a career in CI.

CIP™ -III Elite Certification

It elevates the role of competition analysts to advisors to decision-makers on the best strategic options available in a crowded, changing marketplace. Strategy is one area where imagination, analytics and behavioral economics come together for real-life, practical implementation of delivering strategic impact.

Using Cognitive Biases to Drive Your CI Message
How to Play the Right Game and Win in a Changing World
Driving Competitive Relevance Through VUCA Events
Using Competitive Intelligence to Fuel Futurism
